*Mosquito Control*

# There are two kinds of housekeeping

Good Housekeeping

Bad Housekeeping

# Good Housekeeping can Prevent.

Injuries.....

Spills.....

Fines.....

**Good Housekeeping  
starts with**

**Proper training and good work  
practices.**

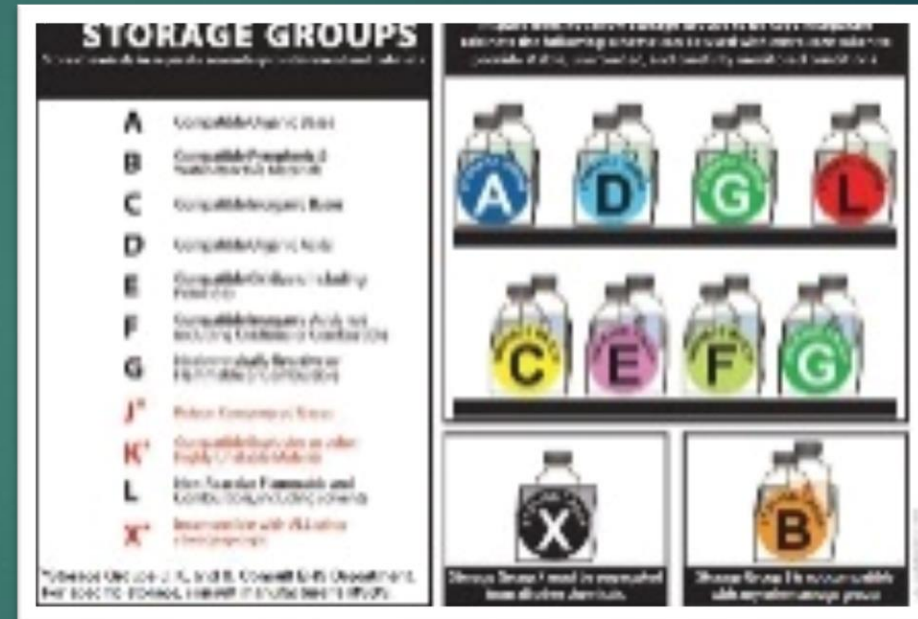

**To assist in Good Housekeeping the employer must provide proper safety gear.**

**PPE Boxes on All Chemical storage buildings.**

## Proper storage of chemicals in storage areas.

# Good Housekeeping Includes:

Preventive Maintenance on  
buildings and all shelving inside  
storage rooms.

**A good housekeeping practice that we use is**

satellite hazmat waste drums placed in work areas.

**Good Housekeeping  
should include**

**Spill kits on all storm drains,  
fueling stations and inside  
all vehicles.**

**Bad housekeeping**

**WILL NOT PREVENT**

**anything in the  
long run but will  
cost you...**

**Poor Housekeeping  
can lead to spills.**

Bad for the environment  
and your wallet

**A spill can lead to jail time.**

# A spill will cost money.

Carpe Diem Larry

# Poor housekeeping can lead to death in the work place.

Dave is no longer here man.

This officer would like to speak to you.

Poor housekeeping will lead to  
injuries.....OUCH.....Son of a @\$^\*!

# Lets take a tour of my place.

## ► Chatham County Mosquito Control

# Chemical Storage Rooms

## Spill kits on or near all storm drains.

To prevent any spill to  
enter water ways.

He gets in trouble  
if I don't do my  
job .

Bad For Me.  
Boss Man Mad.

**The End.....**
