

RICHMOND COUNTY MOSQUITO CONTROL
1916 K North Leg Road
Augusta, Georgia 30909

A position for an Intern will soon be available with Richmond County Mosquito Control in Augusta Georgia.

The position would begin April 16, 2008 and last thru November 15, 2008

- April 16 thru April 18: Area orientation and location of trapping and testing sites. Preparation of trapping and testing equipment.
- April 21 thru April 23: Orientation, classroom training and OJT for seasonal employees.
- April 24 thru Oct 15: Locating and collecting adult mosquitoes and mosquito larvae from wetlands; identifying mosquitoes and larvae; determining testing needs and arranging for testing will be completed during day time hours. Evening hours would be spent assisting with the routine ULV spraying of residential areas. Other duties may be assigned as needed.
- Oct 16 thru Nov 15: Assist in fall larviciding of retention ponds in the county and closing down of the trapping and testing operation.

This is a basic outline and will be subject to change as conditions change.
